MTP installation
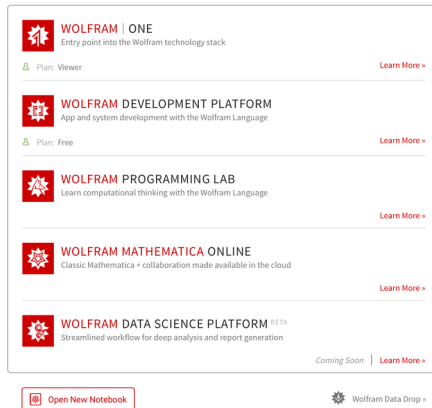

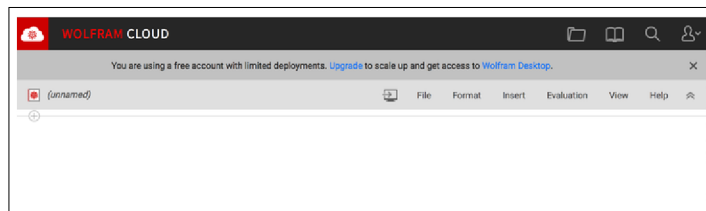

1   the fastest way: go to the cloud

The fastest way for the first steps is to go to the WolframCloud

Create New Notebook and you instantly can start using Mathematica.

## 2   the preferred setup: get the full version of Mathematica

We are using Mathematica Version 12
There is a campus licence available at ETH Zürich.
You have to log in to the ETH it shop.
There is an step by step online video tutorial available how to proceed.

ETH it-shop for download of a full version of Mathematica for ETH students

---

3 get a free Mathematica Player

You also can download a free CDF Player for Mathematica
do work interactively on the Mathematica documents of this class.
